

#513 | ALBANY 2016

SUNY ALBANY | JULY 30, 2016 FREE REGISTRATION*

About

SQLSaturday is a free, one day training* event for SQL Server professionals that provides a great variety of high-quality technical sessions presented by 30 local and national experts on SQL Server, and making it all happen through the efforts of volunteers, sponsors, and the local PASS Chapter, CASSUG.

Networking

Want to make some new connections while you're at SQLSaturday? This conference will give you the opportunity to talk to experts that have written books, founded companies, and are considered the best in the field. In addition, you'll be able to network with our corporate sponsors as well as recruiters. The list of speakers will be updated regularly, so you can find out more about the experts that will attend and contact them if you have any questions or requests.

Register NOW!
